Professional Summary

Software Engineer with 3+ years of experience specializing in MEAN stack development and modern frontend engineering. Proven ability to design and develop scalable Angular applications, integrate RESTful APIs, and build responsive, high-performance user interfaces. Strong focus on clean architecture, maintainable TypeScript code, and delivering production-ready digital solutions.

Professional Experience

Frontend | Full Stack Developer (Angular, MEAN Stack) *Feb 2025 – Oct 2025*
Beetechnica Software House, Abbottabad

- Developed scalable Angular applications with reusable and responsive UI components.
- Integrated RESTful APIs using Angular services and RxJS.
- Improved application performance and ensured cross-browser compatibility.
- Participated in code reviews and collaborated with backend teams to resolve production issues.

Frontend | Full Stack Developer (Angular, MEAN Stack) *Jan 2024 – Jan 2025*
Deventiatech Software House, Islamabad

- Built and maintained high-performance Angular applications.
- Transformed UI/UX designs into reusable and maintainable components.
- Integrated third-party and internal APIs.
- Followed industry best practices including modular structure and Git workflows.

Freelance Frontend Developer & UI/UX Designer *Jan 2022 – Present*

- Delivered modern, responsive web applications using Angular and related technologies.
- Designed intuitive user interfaces and converted designs into production-ready code.
- Managed client communication, requirements gathering, and independent project execution.
